

## ΒΙΒΛΙΟΓΡΑΦΙΑ Φ.Σ.Κ.

- **E. N. Οικονόμου**, Φυσική Στερεάς Κατάστασης Τόμος I (Παν/κές Εκδόσεις Κρήτης) (1997)
- **E. N. Οικονόμου**, Φυσική Στερεάς Κατάστασης Τόμος II (Παν/κές Εκδόσεις Κρήτης) (2003)
- **Π. Βαρότσος, Κ. Αλεξόπουλος**, Φ.Σ.Κ. , Εκδ. Σαββάλας (1995)
- **C. Kittel**, Εισαγωγή στη Φυσική Στερεάς Καταστάσεως (Μετάφραση: Χ. Παπαγεωργόπουλου), Εκδ. Γ. Πνευματικού (1974)
- **R.A. Levy**, Αρχές της Φυσικής Στερεάς Καταστάσεως (Μετάφραση: Χ. Παπαγεωργόπουλου), Εκδ. Γ. Πνευματικού (1974)
- **Ashcroft-Mermin**: Solid State Physics (Holt, Rinehart, Winston), (1976).
- **A.J. Dekker**, Solid State Physics (MacMillan Student Edition),(1975)
- **J.M. Ziman**, Principles of the Theory of Solids (Cambridge Univ. Press), (1972)
- **C.I. Epifanov**, Solid State Physics (Mir Publishers), (1972)
- **O. Madelung**, Solid-State Theory, (Springer-Verlag) (1978)
- **A.H. Wilson**, The Theory of Metals (Cambridge), (1953)
- **G. Burns**, Solid State Physics (Academic Press) (1985)
- **Kubo and Nagamiya**, Solid State Physics (McCraw-Hill), (1969)
- **J.D. Patterson**, Introduction to The Theory of Solid State Physics (Addison Wesley) (1971)
- **D.L. Goodstein**, States of Matter (Prentice Hall) (1975)
- **R.J. Elliot and A.F. Gibson**, An Introduction to Solid State Physics and Applications, (McMillan Press) (1976).
- **A. Animalu**, Intermediate Quantum Theory of Crystalline Solids (Prentice Hall) (1978).
- **J.R. Christian**, Fundamentals of Solid State Physics (J. Wiley) (1988).
- **H. Ibach-H. Luth**, Solid State Physics (Springer) (1995)
- **Harrison** , Solid State Theory (McGraw-Hill) (1970)
- **D. Pines**, Elementary Excitation in Solids ( W.A. Benjamin)(1963).
- **P.W. Anderson**, Concepts in Solids (W.A. Benjamin) (1963).
- **A.H. Levin**, Solid State Quantum Chemistry, (Mc Graw-Hill) (1977).
- **L. Brillouin**, Wave Propagation in Periodic Structures, (Dover) (1953)
- **W.C. Gupta**, Solid State Physics (Vikas publ.) (1997)
- **R. M. White**, Quantum Theory of Magnetism (McGraw-Hill) (1970)
- **A. Hart-Davis**, Solids, An Introduction, (McGraw-Hill) (1975)
- **S. Elliot**, The Physics and Chemistry of Solids (Willey) (2000)
- **A. Haug**, Theoretical Solid State Physics, Vol.I & II (Pergamon) (1970)
- Quantum Theory of Solids (Ed. I.M. Lifshits) (Mir)(1982)
- **A. Smith et al**, Electronic Conduction in Solids (McGraw-Hill) (1967)
- Solid State Science, (Ed. D. L. Weaire & C.G. Windsor) (Adam Hilger) (1987)
- **P.A. Varotsos & K.D. Alexopoulos**, Thermodynamics of Point Defects and their Relation with Bulk Properties, (North Holland) (1985).
- **R.E. Peierls**, Quantum Theory of Solids (Oxford) (1955)

- **C. Kittel** , Quantum Theory of Solids, (Willey) (1963)
- **G.C. Fletcher**, The Electron Band Theory of Solids (North-Holland) (1971)
- **H. Smith & H. Jenseng**, Transport of Phenomena (Oxford) (1989)
- **J.A. Reissland**, The Physics of Phonons (Willey) (1973)
- **P.L. Taylor**, A Quantum Approach to the Solid State, (Prendic- Hall) (1970)
- **Lundstarom** , Fundamentals of Carries Transport (Cambridge) (2000)
- **H. Bottger & V.V. Bryksin**, Hopping Conduction in Solids (VCH) (1980)
- **J. Ziman**, Electron and Phonons (Oxford) (1985)
- **K.J. RaO**, Structural Chemistry of Glasses, (Elsevier) (2002)
- **N. Mott**, Metal – Insulator Transitions, (Taylor and Francis) (1990)
- **N. Mott, E. A. Davis**, Electronic Properties in Non-Crystalline Materials, (Oxford) (1971).
- **R. Zallen**, The Physics of Amorphous Solids, (Willey) (1984)
