- **Physics and Technology of Semiconductor Devices**  
A. Grove (J. Willey and Sons, 1962)
- **Physic of Semiconductor Devices**  
S.M. Sze (J. Willey and Sons, 1981)
- **Handbook of Semiconductors, Basic Properties of Semiconductors**  
Ed. T.S. Moss (North Holland, 1992)
- **Fundamentals of Semiconductor theory and Device Physics**  
S. Wang (Prendic-Hall Intern., 1989)
- **GaAs Devices and Circuits**  
M. Shur, (Plenum Publ. 1987)
- **MOS Physics and Technology**  
N. Nicollian and J. Brews (J. Willey and Sons, 1982)
- **Semiconductors**  
R.A. Smith (Cambridge University Press, 1968)
- **Semiconductors Physics**  
P.S. Kireev (Mir Publishers, 1974)
- **Crystalline Semiconductor Materials and Devices**  
Eds. P.N. Butcher, N.H. March, and M.P. Tosi (Plenum Press, 1986)
- **Physics of Semiconductor Devices**  
M. Shur (Prentice-Hall Int., 1990)
- **Semiconductor Physics: An Introduction**  
K. Seeger (Springer-Verlag, 1973)
- **Semiconductor Fundamentals**  
R. Pierret Vol. I & VI (Addison-Wesley, 1983)
- **Semiconductor Statistics**  
J.S. Blakemore (Dover, 1987)
- **Fundamentals of Semiconductors**  
P.Yu and M. Cardona (Springer, 1996)
- **Semiconductor Physics (Essentials of)**  
T. Wenckebach (Willey, 1999)
- **Basic Semiconductor Physics,**  
B. Hamaguchi (Springer 2001)
- **Optical properties in Semiconductors**  
J.I. Pankov (Dover)(1971)
- **Quantum Processes in Semiconductors**  
B.K. Ridley, (Oxford) (1988)
- **Amorphous and Liquid semiconductors**  
J. Tauc (Ed.), (Plenum) (1974)
- **Semiconductor Optoelectronics, Physics and Technology**  
J. Singh, (McGraw-Hill) (1995)
