

## PANTOUM\*

What We *want* from Our Life!

In our inner-mosts we must carefully look for.

The Ocean of our imagination

Along with the silvery truths and the coruscant emotions in a real world to  
transform.

In our inner-mosts we must carefully look for.

How shall we the contraries bring together?

Along with the silvery truths and the coruscant emotions in a real world to  
transform

Bridging the yesterday with the tomorrow.

How shall we the contraries bring together?

Sun's Earth will continue long to rotate and go around, linked to Milky Way's  
inexorable dance in the Cosmos

Bridging the yesterday with the tomorrow.

What Gaia species will born, disappear, and keep travelling?

Sun's Earth will continue long to rotate and go around, linked to Milky Way's  
inexorable dance in the Cosmos

How long Antigone will survive the dance? How long the worldly righteous will?

And, whose Antigone? Sophocles's or Euripide's?

What Gaia species will born, disappear, and keep travelling?

The Simple? The Intelligent? The Homo next? The Ocean future?

How long Antigone will survive the dance? How long the worldly righteous will?

And, whose Antigone? Sophocles's or Euripide's?

The hybrid person; the inseparable ought/is.

The Simple? The Intelligent? The Homo next? The Ocean future?

The one with the revolutionary and soothing substance of Eros and Wisdom; the  
involving Liberators.

The hybrid person; the inseparable ought/is

the conquest of happiness will realise through

the one with the revolutionary and soothing substance of Eros and Wisdom; the  
involving Liberators.

What We *want* from Our Life!
